"The role of data will be a key differentiator for the organisations that succeed in the next digital wave. Big Data Week educates and creates new opportunities for organisations of all shapes and sizes in understanding what big data can do for them now and in the future."

- Ande Gregson,
Founder of media140 Worldwide; Big Data Week Asia Pacific & Australasia

BIG DATAWEEK
22-28 April 2013

20 Cities
200 Meetups
3000 Participants

"a global festival of data"

bigdataweek.com

Kuala Lumpur is part of #bdw13!

Check out the events listed below. All events are free.
More details at http://bigdataweek.com/kualalumpur/

[*Event details may change, especially due to elections; check the website for updates]

*19/4 Friday, 8pm	SS2, PJ	**TRANSIT: Distillation** — Our kickoff party! Join us for an evening of networking with food, drink, creative people... plus a showcase of some cool data visualizations.
*20/4 Saturday, 10am	Bangsar	**Python Malaysia: Big Data Week Workshop** — The Python language is emerging as a great tool for data analysis. Python User Group Malaysia takes a closer look, with examples from Kaggle.
23/4 Tuesday, 2pm	Cyberjaya	**Big Data in Telecommunications 2** — This is the sequel to last year's Big Data in Telecommunications with TM R&D and Big Data Malaysia. If you work with telcos, this is for you.
24/4 Wednesday, 9am	Cyberjaya	**Big Data: Strategy, Practice, and Research** — A full-day event, featuring 8 expert talks plus a panel discussion, covering Big Data from the perspective of what's possible, practical, and scalable.
24/4 Wednesday, 7pm	Mt. Kiara	**SNIA Malaysia Tech@Break** — Meet the data storage experts; talks include scalable file systems, and a deep-dive into NFSv4.
25/4 Thursday, 9am	B. Bintang	**GPU Technology Workshop Asia 2013** — Graphics Processing Units for general purpose computation. Tracks include Finance, Media & Entertainment, and of course... Big Data.
25/4 Thursday, 2pm	Bangsar	**The Data Revolution: Powered by the AWS cloud** — An event focused on the intersection between Big Data and the Cloud, as envisioned by Amazon Web Services.
25/4 Thursday, 7pm	Bangsar	**NoSQL Asia: Exploring The Technology Behind Big Data Week** — NoSQL database technology is a key enabler of Big Data; come here for an intro to NoSQL, followed by talks on deeper stuff like graph DBs.
*26/4 Friday, 2.30pm	Sunway	**Data Journalism: Storytelling in M'sia with Big Data** — Hear from our panel of experts about the "who, what and how" of emerging data journalism trends.
